SAFETY

Reading this information could prove to be a good investment of your time in case of emergency. One may never need to implement this advice, but since we should always be alert for the unexpected, we request you to be diligent and always note Fire Exit as illustrated on the back of your room door and emergency procedures as mentioned below:

Should there be heavy smoke, you may have difficulties locating these exits, so please take time to observe the following points: Count the number of doorways between your door and at least two emergency exits.

Check the location of the fire extinguishers/hoses in the corridor of your floor.
Understand the air-conditioning "ON" and "OFF" control in your room.

IF YOU FIND FIRE

- Activate the nearest fire alarm.
- Call the Hotel Telephone Operator on extension "999"
- Leave the building if possible, using the exit staircase.
- Close door(s) against the fire if unable to leave your room.

IF EVACUATING UPON HEARING THE FIRE ALARM

- Take your room key card and move cautiously.
- Feel the door and handle with the palm of your hand. If the door or handle is hot or abnormally warm, don't open it.
- If the door is not hot, open it carefully, but be ready to close it immediately if necessary.
- If there is smoke in the corridor, stay as low as possible.
Crawl on your hands and knees if necessary.
- Proceed to the nearest emergency exit. Always stay calm.
If it gets hot as you go down, do not proceed.
- If your exit is blocked or fire is on the lower floors, go back to your room or to the roof and wait for help to come.
- Most fatalities occur from inhalation of smoke and poisonous gases, not from burning.
Always stay as low to the ground if there is any smoke present.
- Do not use the elevator.

SAFETY

IF YOU HAVE TO REMAIN IN YOUR ROOM. IF YOU ARE UNABLE TO MOVE OUT.

- Do not panic. You can stay in your room and still survive a fire. Turn Off the air-condition.
- Inform the hotel Telephone Operator about your location. Stuff wet towels and sheets around door seals and air vents.
- If smoke still enters your room, make a tent over your head with a wet blanket.
- Use the waste basket to bail water from tap if smoke seeps in. Remove drapes from the window.
- As a last option, if the air becomes too smoke-laden, it may be necessary to break on the windows. If the windows do not open, break on. Do not open or break a window if smoke or flames are rising outside from a lower floor.

IF A FIRE STARTS IN YOUR ROOM

- Evacuate your room immediately. Switch off the air conditioning. Take your room key card with you. Close the door securely behind you.
- Activate a fire alarm and notify your immediate neighbours.
- Call the Hotel Telephone Operator on the nearest phone, walk to safety via the emergency exit.

SAFETY TIPS

Please observe the location of fire exits, and in the unlikely event of fire or smoke stay calm and proceed to the nearest exit, staying beneath the level of smoke.

To avoid further accidents, notify any disability or illness upon check-in or as soon as possible afterwards. If an emergency should arise in your area, the hotel personnel can extend special assistance immediately.

Please call hotel Emergency extension, if you are in a fire situation.

EARTHQUAKE SAFETY GUIDE LINE

Remain calm, if you stay calm , you will be better able to access your situation
If you are ondoors , stay there , if you are in Danger.

- Get under a study table , desk or bed
- Brace your self in an inside corner away from your windows
- Move to an inner wall or corridor
- Choose shelter which will provide an airspace if it collapse. if your furniture shelter moves , stay under it and follow
- Stay away from tall shelves ,wall cabinet and other furniture, which slide or topple over
- Stay away from windows , sliding glass doors and mirrors
- Grab any thing handy (blanket , pillow , table cloth , news paper, soft box , etc) to shield you head and face from falling debris and splinting glass.
- Don't be alarmed if the fire alarm or sprinklers goes off.

SECURITY

Although the style of lock on your guest room door may vary from hotel to hotel, most room types are fitted with an additional security device. This chain is activated from inside your room, it is recommended that you use this feature whenever you are in your room, especially upon retiring.

YOUR VALUABLES

We regret the Hotel cannot be responsible for valuables left in your room. Assistance would be provided by the Hotel to protect the same.
